IPSO-Partner for Western Australia &  
Northern Territory

## FEATURES

- Freestanding, high spin
- Stainless steel cabinet & door
- Stainless steel drum and tub
- Extra large door opening (IY800, IY1000 Ø530mm, IY1200 Ø650mm)
- Two large drain valves (Ø103mm)
- Easy access to all parts
- USB plug located on the main board
- Standard liquid soap connections
- Frequency controlled motor
- Patented soap dispenser with 5 removable compartments
- Perforated lifting ribs: more mechanical action, lower water consumption
- Air operated water inlet
- Eco washing programs - significantly reduces water and electricity consumption
- Liquid soap connection : automatic dosing
- Manual weighing system
- SmartWAVE : optimised energy consumption while washing

## OPTIONS

- Liquid soap pumps
- Recycle drain valve
- Tilting system: assists operators during loading & unloading
- Automatic weighing system through 4 weighing cells

## CONTROL: EVOLIS ELITE

- 7", full color touch screen display with swipe function: very intuitive for users
- User-friendly screen with operating instructions built in as part of the control
- Complete control content available in 34 languages
- Wireless communication enabling programming & firmware updates through cloud
- Automated service reminders remind users to maintenance tasks
- IPSO Connect: interactive dashboard offers operational performance info on mobile device

### Touch screen control for OPL

Control with 7" touch screen featuring new connectivity and data-accessibility functionalities through cloud. 20 standard wash programmes, total memory capacity for 99 programmes.

### Integrated management platform

allowing analysis of financial & operational performance as well as service and maintenance organization.

### Industry-leading 3+2 warranty

Our confidence in the dependability and robustness of our equipment is reflected in our three-year warranty policy. Plus a two-year warranty extension on critical parts.

### Optimised energy consumption while washing

The absorption ability of the load is automatically determined at the start of the cycle. Water levels are then optimized throughout the wash cycle with no compromise to the quality of the clean.
